2.5	<p>Humans destroy the natural homes of the animals in the forests, lakes, and plains. When the number of people on Earth increases, they need more places for living. They cut down trees and destroy lakes. They make homes and roads instead. Then the animals won't have a place to live. They will become endangered and will die out in the future. The Iranian cheetah is among these animals. This wild animal lives only in the plains of Iran. Now there are only a few Iranian cheetahs alive. If people take care of them, there is hope for this beautiful animal to live.</p> <p>a. Lakes are not the natural homes of animals.                                True            False</p> <p>b. Iranian cheetah is an endangered animal.    True            False</p> <p>c. Why do humans destroy the forests?</p> <p>d. How will the Iranian cheetah live in the future?</p>	15
